

Procedure in cases of inability to work

1. Announcement to the Collective Foundation GRANO

Your announcement to the collective foundation GRANO is required already after 10 days of partial or complete inability to work or in cases of frequent and repeated short absences within a year. Your announcement is helpful whenever the resumption of work is not foreseeable. If the insured person is previously informed about the notification, you can inform us without his or her consent.

2. Power of attorney of the insured person

Please send us within 30 days after the beginning of the inability to work the power of attorney fully completed and duly signed by the insured person. The form is available for download on our website www.stiftung-grano.ch (Kundendienst / Leistungsfälle) in German or French.

3. Copy of your announcement to the daily allowance or accident insurer

Once you announce the inability to work to your daily allowance (KTG) or accident (UVG) insurance, we kindly ask you to send us copy of the announcement including the policy number and the waiting period.

4. Other documents on request

In certain cases, particularly if an inability to work lasts longer, other documents or information may be needed. In these cases, we will request them individually.

Contact person at the collective foundation GRANO for cases of inability to work:

Collective Foundation GRANO
